

Applications

INDUSTRIES

- Water
- Utilities
- Gas
- Oil
- Chemical
- Refining

APPLICATIONS

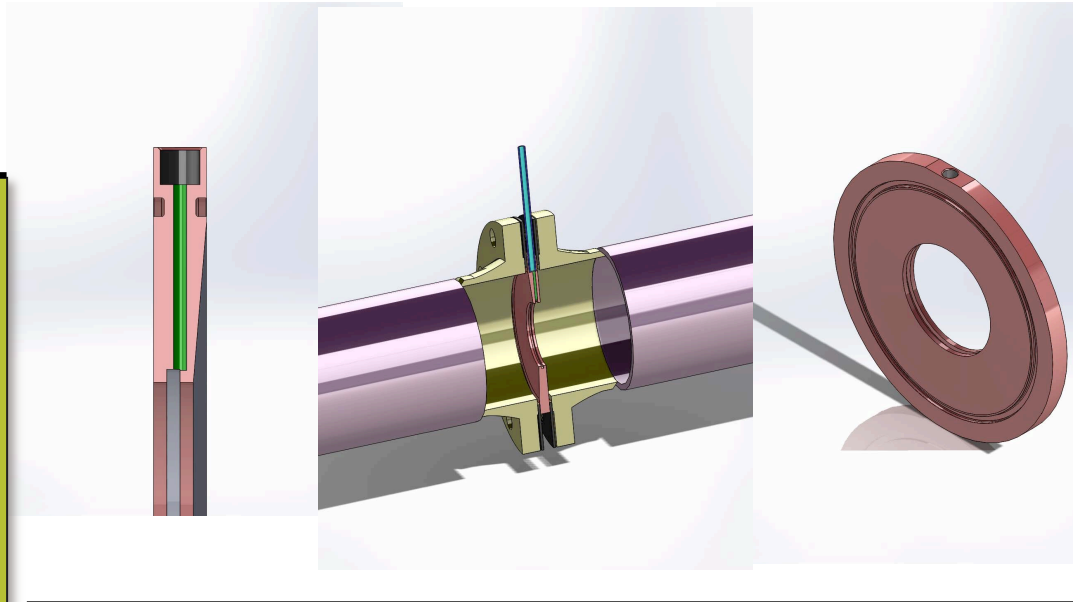

- Water Management
- Multiphase, Slurries
- Gas / Wet Gas
- Desalination
- Produced/Tieback Water
- Plants
- Sanitary Service
- Steam
- Chemical Injection
- Fuel Measurement

SIZES

Up to 24" (larger, consult factory)

PRESSURE

: Vacuum to 20,000 psig

The TORUS CENTER-TAP Orifice Plate

- New application for Differential Pressure
- Custody transfer qualified by API 22.2
- Simple installation, between flanges
- Elimination of weaknesses of Orifice Plate and seal rings
- Stand-alone meter for all directional and bi-directional flows
- Standard retrofittable for Orifice Unions
- No profiler or straighten vanes required -- 5D up and 3D down
- Unlimited size, pressure and process usage
- Unlimited material selection
- Utilized in all measurement Industries
- More accuracy for less cost
- Low cost of operation and maintenance
- Provides self-diagnostics by adding one transmitter

For more information of this or other versions of the TORUS, contact **Dave Bell, CTO**, at **832-746-7179 (mobile)** or by emailing dbell@belltechnologiesllc.com.
